

The Brindabella & Griffin Rooms

The Brindabella and Griffin function rooms face the front of the hotel with a view of Northbourne Avenue through the expansive floor to ceiling windows. Boasting wonderful amounts of natural light, and a newly refurbished interior the two rooms are the perfect location for your next function.

The Brindabella and Griffin Rooms can also be combined to create one large room, ensuring all your function needs, big and small, can be catered for. Named after the Brindabella Ranges and Mr Walter Burley Griffin, the architect who designed Canberra.
